

BUKH REMOTE CONTROLS

The BUKH remote controls kit includes regulate mechanism, handle, and cable. The parts are available as a complete kit only, not as single parts. If supplied individually for installation with existing control parts we cannot guarantee that it will work, we recommend you to replace all the parts.

Choose between two different handles and three different cable lengths.

030D9724 Regulate Mechanism Remote

020D9714 Sidemounting Grip "T"

020D9719 Topmounting Bent Handle

020D9708 Cables 4000 mm (2 pcs)
